Four Pillars Of Leadership Management A Leadership Skills ...

The Four Pillars: Leadership, Management, Command, & Control. While there is much agreement nowadays about the need for good leaders and managers, the need for command and control have come under fire as organizations move away from hierarchical (vertical) layers to horizontal or flat structures. However, command and control are just as important as leadership and management if we return to their true meaning.

Leadership, Management, Command, and Control

Pillar One: Focus on acts and activities. Blue ocean leadership, in contrast, is action-based, just as strategy is. It focuses on what acts and activities leaders need to do to provide a leap in
