The Feral Child Nicknamed Genie | Psychology Today

Genie was strapped to a potty chair and left alone in an empty room during her first 13 years by her disturbed father and indifferent and passive mother. The book deals with her condition, the consequences of her not acquiring language, how language seems to be innate as long as there isn't extreme deprivation of it,...

Genie: A Scientific Tragedy - Chapter 1, Found Summary

...

The tragedy the title refers to is that Genie was a child exploited by the scientific world as she was treated as a case study of language acquisition rather than an abused child desperately in need of supportive therapy. Genie never got the help she needed, and ended up with "soul sickness" in a home for mentally retarded adults.
