How Music Works : The Science and Psychology of Beautiful ...

Using a live oscilloscope, images of wave forms, interactive activities, and (of course) our hybrid arts aesthetic, students learn how vibration, waves, frequency, and amplitude combine with melody, accompaniment and harmony to create music. This interactive, STEAM (Science, Technology, Engineering, Arts, and Math) performance was created to specifically address 3rd grade national education standards, but is appropriate and has been performed for students in grades K-8.
